# IHR

## 8 Core capacity requirements identified under the IHR

1. National legislation, policy and financing
2. Coordination and NFP Communications
3. **Surveillance**
4. Response
5. Preparedness
6. Risk Communication
7. Human Resources
8. Laboratory

# PUBLIC HEALTH INTELLIGENCE IN THE CONTEXT OF IHR

(2005)

Public Health Intelligence (PHI)

**“...a core public health function responsible for identifying, collecting, connecting, synthesizing, analyzing, assessing, interpreting and generating a wide range of information for actionable insights and disseminating these for informed and effective decision-making to protect and improve the health of the population.” *(United Nations Terms)***

## Early warning and response

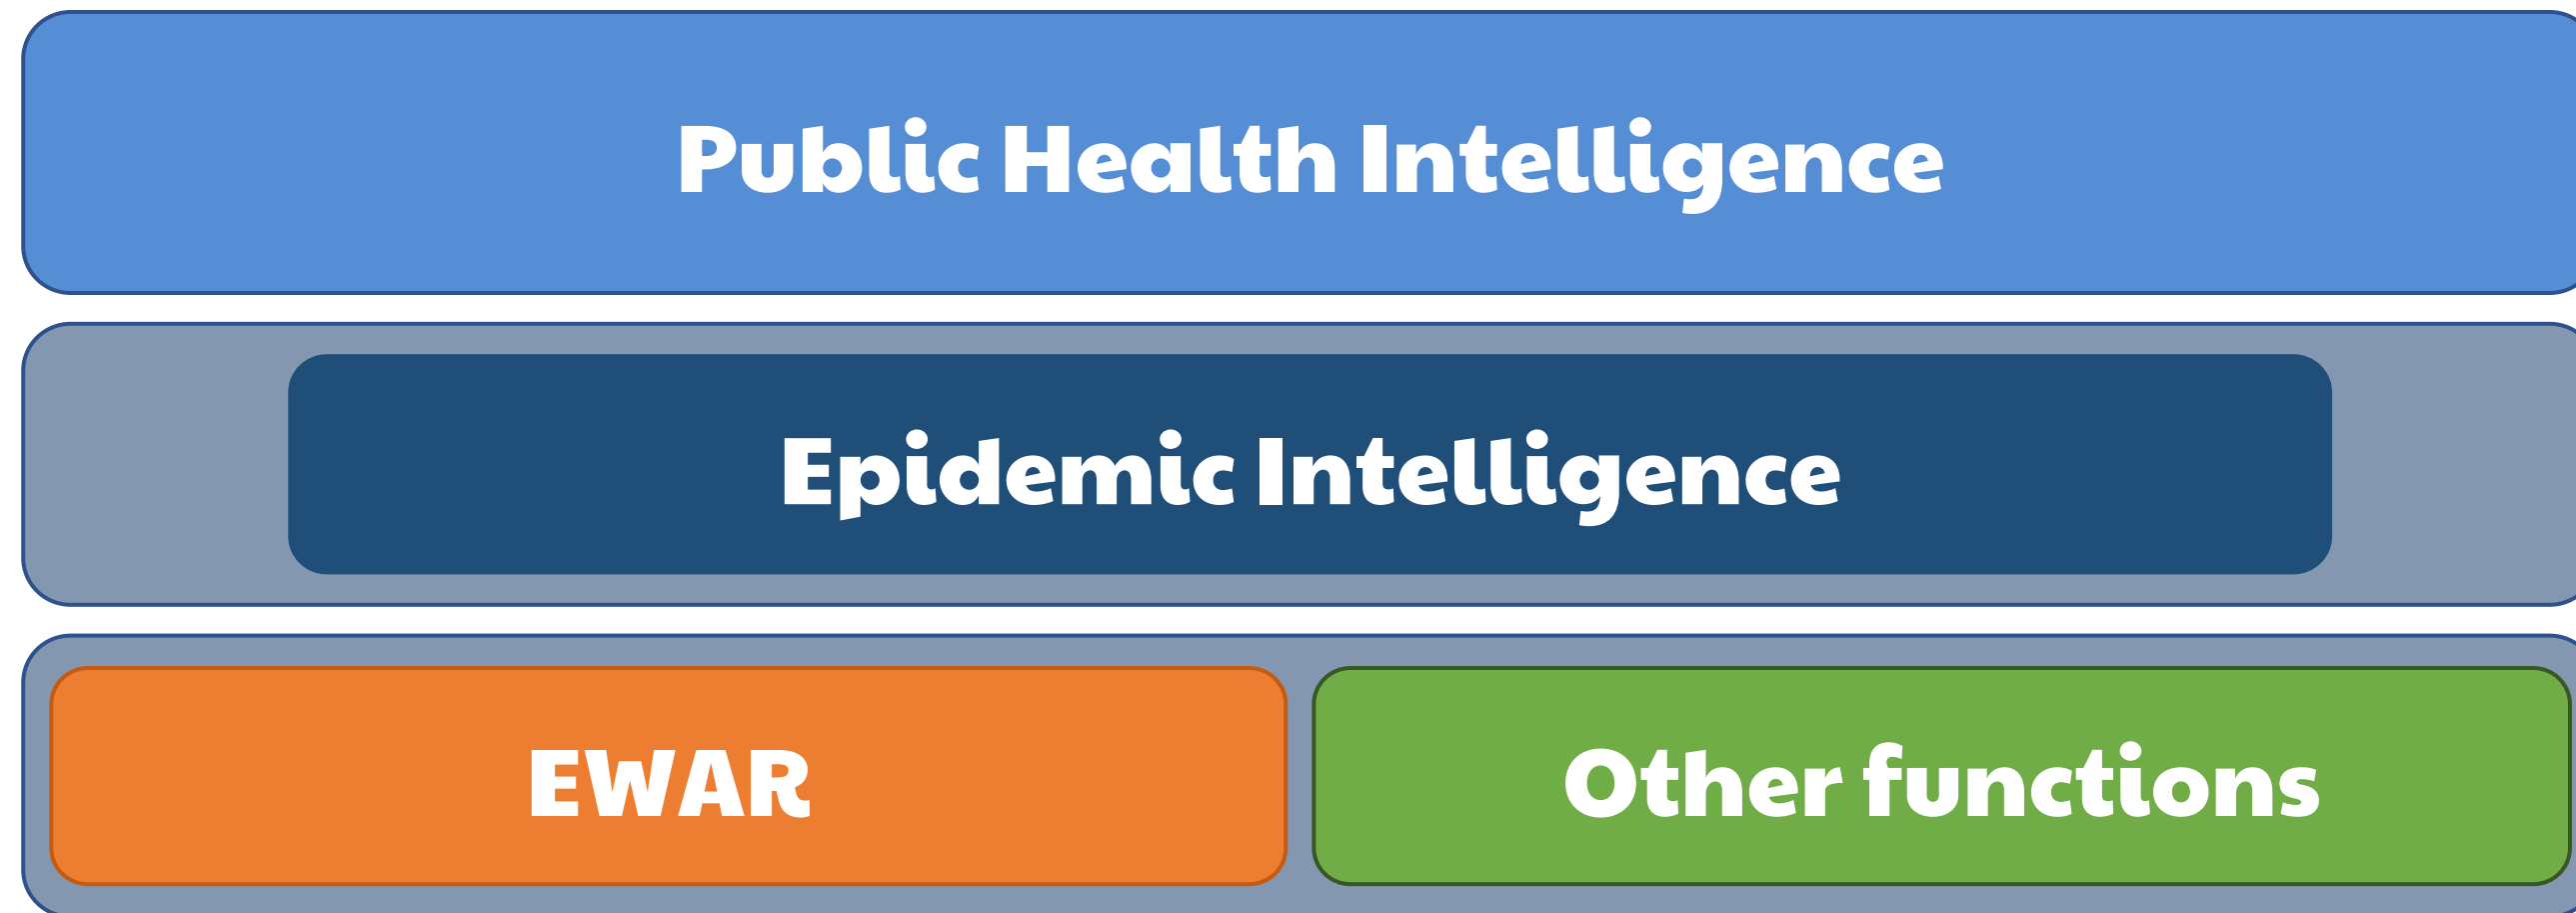

To detect public health events requiring rapid investigation and response, in order to ensure that events of all origins are rapidly detected and controlled.

## Other surveillance functions

To measure disease burden, including monitoring morbidity and mortality trends over time to effectively guide control programs and allocation of resources.

# **EPIDEMIC INTELLIGENCE**

Epidemic intelligence (EI) is the component of **public health intelligence** that focuses on infectious disease threats

# PUBLIC HEALTH INTELLIGENCE ACTIVITIES

## Detection

Routinely screening and monitoring information and data from numerous sources

## Verification/Validation

Verify accuracy and credibility of information from unofficial sources (EBS)

Validate data collected by surveillance systems (IBS)

## Analysis

Analyze:

- Data
- Context
- Background
- Similar events
- Annual and seasonal trends

## Assessment

Determine the likely impact of the event and interpret this to inform further actions.

## Further Actions

Potential further actions: continued monitoring, communication output, alert/notify, response recommendations

# SURVEILLANCE SOURCES OF INFORMATION FOR PHI

Examples of public health intelligence sources of information include:

- Epidemiological surveillance
  - Mandatory notifications
  - Sentinel surveillance
- Syndromic surveillance
  - Registers
  - Mortality data
  - Laboratory data
  - Surveys/research

News media

# Epidemic Intelligence from Open Sources

EIOS is a unique **collaboration** between various public health stakeholders **around the globe**. It brings together new and existing initiatives, networks and systems to create a unified **all-hazards, One Health** approach to early detection, verification, assessment and communication of public health threats using **publicly available information**.

# EIOS

EPIDEMIC INTELLIGENCE  
FROM OPEN SOURCES

## The Initiative

- 1) minimize the impact of hazards through improved detection
- 2) strengthen capacity for early warning
- 3) support event-based surveillance

# EIOS Principles

## AGILITY

*Evolving technology, functionality and capacity building at global, national and local levels*

## COLLABORATION

*Bring **people** together and form expert communities*

## EFFICIENCY

*Bring **initiatives** together and align activities*

## EXCELLENCE

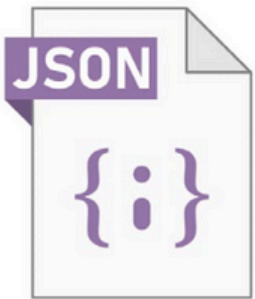

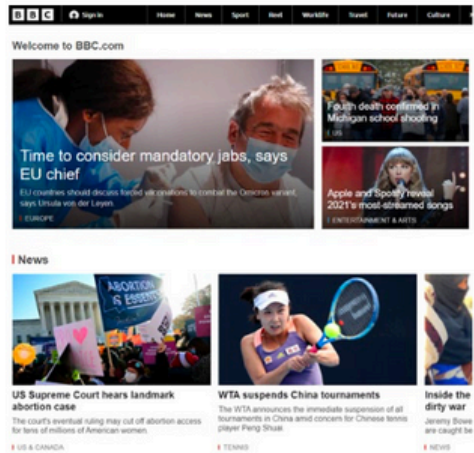

*Establish standards to improve assessment, trust and confidence*

## TRANSPARENCY

*Facilitate communication and accountability through governance*

# Vai trò trong EIOS

Có nhiều vai trò hệ thống EIOS khác nhau, mỗi vai trò có một tập hợp quyền riêng.

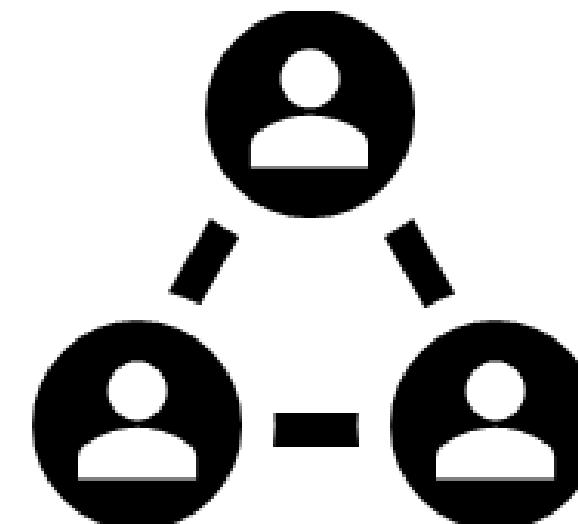

- Thành viên cộng đồng
- Thành viên nhóm
- Quản lý nhóm
- Quản lý cộng đồng
- Quản lý EIOS
- Quản trị viên EIOS

# Communities

# Teams

# Xác định mục tiêu

## Các mối nguy hiểm

Bệnh truyền nhiễm ở người/động vật, thiên tai, nguy cơ xã hội, v.v

## Khu vực địa lý

Các quốc gia, vùng lãnh thổ và khu vực

## Tài nguyên

Số lượng nhà phân tích trong năng lực nhóm, thời gian dành riêng, nhu cầu đào tạo, v.v.

## Kế hoạch

Tần suất giám sát:  
Hàng ngày, Hàng tuần,  
Đột xuất, v.v.

# AI SUMMARIZATION

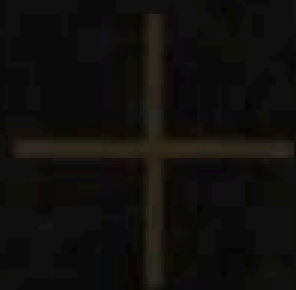

The screenshot displays the EIOS Monitoring - SANDBOX 2.0.0 interface. The top header shows the EIOS logo and the title 'Monitoring - SANDBOX 2.0.0'. The main content area is divided into a sidebar on the left and a main feed on the right. The sidebar contains various filters and search options, including 'Activities', 'Board Filters', 'Text Search', 'Time Filter', 'Categories', 'Mentioned Geographical Areas', 'Languages', 'Mentioned Entities', and 'Sources'. The main feed displays a list of articles, with the first article titled 'El X Encuentro de Médicos de Familia alerta sobre el aumento de enfermedades importadas; MEDICINA FAMILIA'. A red box highlights the 'AI Summary' button in the top right corner of the main feed. Another red box highlights the 'Summarize each article' option in the AI Summary modal. A third red box highlights the 'Send' button in the AI Summary modal.

# Bản đồ

The screenshot displays the EIOS Monitoring - SANDBOX 2.0.0 interface. The top navigation bar includes the EIOS logo, the text "EPIDEMIC INTELLIGENCE FROM OPEN SOURCES", and the title "Monitoring - SANDBOX 2.0.0". Below this, a breadcrumb trail reads "BOARDS I CAN VIEW / EBOLA MONITORING / FEED". The main header area features a "WHO Test" button and the title "Ebola monitoring". A secondary bar shows "Personal: Ghanem Heidi" and "Updated: 16/10/2025".

The interface is divided into a left sidebar and a main content area. The sidebar contains several expandable sections: "Activities", "Board Filters", "Text Search", "Time Filter", "Categories", "Mentioned Geographical Areas", "Languages", "Mentioned Entities", and "Sources". The main content area features a world map with orange heatmaps and black dots representing data points. A red box highlights a location pin icon in the top right corner of the map. Below the map, a list of articles is displayed, each with a checkbox, title, source, date, language, and a list of related entities. The first article is titled "El X Encuentro de Médicos de Familia alerta sobre el aumento de enfermedades importadas; MEDICINA FAMILIA" and is sourced from "gphin". The second article is titled "SEMG Navarra aborda los desafíos de las enfermedades emergentes importadas" and is sourced from "redaccionmedica". The third article is titled "Hundreds of fired CDC workers' fates hang in the balance after a week of chaos" and is sourced from "nbcnews".
